

3 Pieces of a Broken Heart: song

by Jerry Ratch

I ate 3 pieces of a broken heart
I wonder who ate the rest?
They may have eaten the best
I don't know and can't even start
To wonder how it got in such a mess

3 pieces of a broken heart
You could tell it just fell apart
It once had an arrow in it
You could still see the shadows
Scattered about, the feathers
The deadly shaft protruding

The remnant of moaning, the sobbing
The sounds in the hallways
Outside the silence that was gnawing away
At nothingness

I ate 3 pieces of a broken heart
I wonder who ate the rest?
They may have eaten the best
I don't know and can't even start
To wonder it got in such a mess
