

Cloud 9, Really?

by Jerry Ratch

I wonder, just a thought
Who even dreamt to
Teach a pig Latin?

And why a starfish
Mirrors the stars
We do not know

There's a whole lot
To wonder about
Like, I don't know

How about Cloud 9?
I want to know what happened
On Cloud 8

That made cloud 9 so great
I mean, how bad did it get
On cloud 8?

And when can we
Get a peek at
Cloud 10?
