

Our Previous Lives - song

by Jerry Ratch

When I arrived in heaven
Calling out your name
Running just on vapor
Leaving my old flames

I thought I saw you singing
Dripping from all sides
Crying like a rainbow
Reliving our old lives

Crying like a rainbow
Beautiful to see
Drawing up some moisture
From the living sea

I thought you might remember
Some of our past times
Lying in the fields
And singing our old rhymes

And I recall that vow
I once made to you
That I would come and see you
When I got up there too

Please do not forget me
Cause I remember you
In all our previous lives
On earth together too

And I am still your true love

Please don't forget the times
When we were once together
Complete inside our lives

When I arrived in heaven
Calling out your name
I thought I saw you singing
Dripping from all sides

Crying like a rainbow
Reliving our past lives
Please do not forget me
Cause I remember you

In all our previous lives
On earth together too
Crying like a rainbow
Crying like the dew
